

MANILI VILLAS - HOTEL DESCRIPTION

The villas are located in the traditional village Archanes, 14 km. outside Heraklion, in the neighborhood "Manili" hence their name. Blending perfectly the traditional habits with the amenities of a contemporary life, we have created this space to target a pleasant and comfortable stay. Stroll through the traditional cobbled streets of the neighborhood and the village and enjoy the scents of jasmine from the courtyards of old houses. Enjoy your coffee in cafes and traditional Cretan cuisine in the picturesque taverns. Enjoy your stay!

Accommodation

The names of the three Manili villas (Prinos – Kedros – Sfendamos) are inspired by the rich flora of Crete. Uniqueness, beauty and abundance are inextricably connected with the Cretan land and at the same time they are the values of Manili villas. Our goal is to offer you a comfortable and pleasant stay, in a traditional, natural landscape.

Villa Prinos

«Strength and Endurance»

Prinos Villa symbolizes the possibilities that we offer you to evolve your spirit and your body, providing facilities for recreation and physical activity at the appropriately formed indoor and outdoor spaces. Prinos (*Quercus coccifera*) is a tree species like oak. Located in all the mountains of Crete, thrives in rocky and dry soils of the island and withstands specific weather conditions. Indeed, in the beautiful forest of Rouvas there is the largest Prinos trees cluster of Europe.

Villa Kedros

«Purity and Protection»

Kedros villa represents purity and tradition that are strongly reflected in all Manili villas through the local culinary delights, the special perfumes and the medicinal herbs that we offer during your stay. Kedros (Cedar/Cedrus) is a coniferous evergreen tree belonging to the family of Pine Tree. It bears fruit two years after maturing and secreting a unique resin with pharmaceutical and conservative properties, used for intense heating healing. It can be found in traditional shops.

Villa Stendamos

«Luxury and Elegance»

Sfendamos villa represents beauty, visual harmony and luxury of all Manili villas and the village Archanes. Enjoy everyday luxury that we offer and also admire the rich historical and archaeological value of the area of Archanes, visiting the local museums and antiquities. Sfendamos (or else in greek: Sfendami) is a genus of trees with the scientific name Acer. The wood of the root has beautiful grains and it is used for small luxury furniture
